# Copernic Desktop Search Corporate

The fastest way to find data and increase productivity in your organization

## Designed with Your Needs in Mind!

› Secure › Scalable › Easy to Deploy and Maintain

### Easy to Use

- Employees will benefit immediately
- No training required
- Uses familiar Windows® commands
- Uses icons for ease of use

### Integrates Seamlessly

- Supports hundreds of new and legacy file types: Word®, Excel®, PowerPoint®, RTF, PDF, etc.
- Supports Outlook®, Thunderbird®, Eudora™, Lotus® Notes® and more
- Windows Vista®/MS Office® 2007 compatible

### Affordable and Cost-Effective

- Individuals save hours per week, companies save thousands
- One time purchase, not a subscription
- Affordable per seat pricing model
- Free updates, upgrades, and support for the first year

### Standardize User Configuration with GPO

- Customize and/or limit indexing of local and network drives
- Specify file types to be indexed and limit to important content
- Includes detailed documentation for system administrators

### Fast and Accurate

- Finds results *as you type*
- Supports advanced search operators, phrases, and options to narrow your search results
- Provides "did you mean?" query correction technology

### Dependable and Time Tested

- In use since 2004 with millions of satisfied users
- Unique technology ensures index integrity even after a computer crash

### Actionable

- Find information and be productive with it
- Scan a quick preview of any found document
- Open, print, delete found files
- Forward and reply to found emails

### Won't slow down your computer

- Patent-pending technologies ensures unobtrusive indexing process
- Indexes only when computer is idle
- Low memory footprint

### A Global Solution

- Globalization is our priority, not an afterthought
- Used by over 4 million people in 50 countries
- Available in English, French, Spanish and German

### Customizable and Adaptable

- Add and delete functions and icons
- Integrate with your Intranet, and more
